Topics? Ecosystem Architectures!

- ☑ Experience reports on best practices
- ☑ Architectural styles, tactics, or patterns vs. bad smells or anti-patterns
- ☑ Tools for inter-system static and/or dynamic analysis, visualization, and change awareness
- ☑ Empirical studies (surveys, case studies, experiments) of ecosystem phenomena
- ☑ Processes , engineering methods for the evolving ecosystem architectures
- ☑ And everything else, which scales architectures up to the level of software ecosystems ☺!
